

The Nebraska High School Rodeo Sidepot

Our goal is to have a functional sidepot jackpot at the High School Rodeos and at State Finals and to do something to make our association a little better by increasing the scholarship fund. We are utilizing volunteers for the admin of the sidepot and have chosen to use the RMS system for entry and payout to simplify entries, payments, results, and payouts. We understand there are fees for using the online payment system, but to keep it simple and manageable for our volunteers that's the price to pay and it's much cheaper than the time and effort being donated.

We will get results from the NEHSRA RMS system once they are audited and finalized by the NEHSRA entry secretary, typically mid-week following the rodeo. Checks will be printed and available the following weekend for pickup.

Payout

For all events

For the season rodeos:

Entry fees \$35 with \$5 held to cover expenses and support the association via the scholarship fund.

\$30 goes into the pot with 20% of pot going towards the incentive for contestants not in the top 15 in the respective event (Standings prior to weekend of rodeo). For the rough stock events the incentive is for the highest placing contestant not in the top 5 in their respective event.
